Equations

All the equations should be typed using either Math Type tool or Microsoft Word Equation Editor 2010 or newer. Times New Roman

Illustrations

Illustrations submitted should be clean digital files which do not infringe copyright. Digital files are recommended for highest quality reproduction and should follow the below criteria.

300-600 dpi;

Sized to fit on journal page;

JPEG, TIFF graphic formats;

Submitted as separate files,

Tables and Figures

Tables and figures must be embedded in the manuscript text. A caption must appear above each table; any footnotes should be suitably identified below the table. All units must also be included.

Figures should be completely labeled with a caption given below the figure.

Electronic Supplementary Material (ESM):

Supplementary material such as applications, images and tables can be published with your article to enhance it. Submitted supplementary items are published exactly as they are received. Please submit your material together with the article and supply a concise, descriptive caption for each supplementary file. Supplementary should be placed at the end of paper preceding the Acknowledgements. Figures and tables named by Table S1 and figure S2.

Acknowledgements

Acknowledgements must be mention in a separate section at the end of the article before the references and do not, therefore, include them on the title page, as a footnote to the title or otherwise. Also, List funding sources in this standard way to facilitate compliance to funder's requirements: Funding: This work was supported by the National Institutes of Health. Acknowledgements should be placed at the end of paper preceding the references.

References

References are numbered consecutively in order of appearance in the text and they are identified by Arabic numerals in square brackets [1].

Reference formatting

There are strict requirements on reference formatting at submission. The author(s) name(s), journal title/book title, chapter title/article title, year of publication, volume number/book chapter and the pagination must be present. Use of DOI is highly encouraged. The reference style will be applied to the accepted article by AMECJ at the proof stage. Note that missing data will be highlighted at proof stage for the author to correct.

Reference style:

Text: Indicate references by number(s) in square brackets in line with the text. The actual authors can be referred to, but the reference number(s) must always be given.

Example: '..... as demonstrated [3,6]. Barnaby and Jones [8] obtained a different result'

List: Number the references (numbers in square brackets) in the list in the order in which they appear in the text.
